A few wrap-up slides
Semantically annotated data

System of ontologies

ARIES modelling environment

Semantically annotated models

Resulting ES (provision) map

Σ Data and models "labelled" based on their meaning

User query

User-provided context
Semantically annotated data

Semantically annotated models

System of ontologies

User query

Resulting ES (provision) map

Σ Data and models "labelled" based on their meaning

Global models, complex models, ...

User-provided context

ARIES modelling environment
Modeller interested in semantics: k.LAB Modeller

ES researcher/practitioner interested in parametrizing their models: k.EXPLORER with local data and contexts

Quick ES assessment: k.EXPLORER
